EXTREME

The first product line from the Czech brand HUSKY – EXTREME – offers highly durable tents suitable for even the most demanding natural conditions. They are equipped with an external, lightweight Duralumin structure that guarantees stability and ease of erection even in strong winds or otherwise poor weather. For use in winter and snow, they are also equipped with snow collars. High-quality and modern materials boasting a high water column rating ensure comfort, even in heavy snow or heavy rain. Tents from the EXTREME series are designed especially for alpine hiking and expeditions.

FALCON 2

TENT FOR ADVENTURES IN TWOS

The Falcon 2 is a tent for two travellers that is set up in no time. It is light, spacious, and incredibly stable – even in very bad weather. High resistance to the elements, breathability, and comfort are guaranteed by the high-quality materials from which both walls and the floor are made. Falcon 2 is suitable for longer trips and demanding activities like mountaineering, ski-mountaineering, or cycle touring.

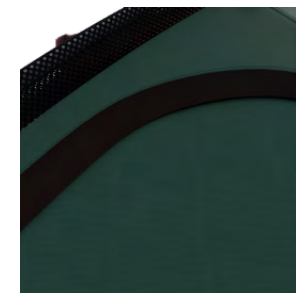

DIMENSIONS (W × L × H)	220 × 340 × 120 cm
DIMENSIONS (PACKED TENT)	52 × 16 cm
WEIGHT MIN./TOTAL	3.8 kg / 4.2 kg
CONSTRUCTION	Double-walled, freestanding tent with poles on the outside
OUTER TENT	Polyester Ripstop, PU coating 7,000 mm H ₂ O, taped seam
INNER TENT	Breathable Polyamide (Nylon) + mosquito net
GROUND SHEET	Polyester, PU coating 11 000 mm H ₂ O, taped seam
BEARING POLES	Dural poles ø 8.5 mm
ACCESSORIES	Snow collars, set of lightweight Duralumin pegs, repair kit, compression pack
COLOUR	Green

EXTERNAL STRUCTURE

FAMILY

The FAMILY product line is especially characterised by very spacious tents. The interiors of these models offer plenty of space for a detachable bedroom, storing all your essentials, and in most cases upright freedom of movement. The reinforced structure and high-quality materials used guarantee sufficient comfort and consistently good resistance to the vagaries of the weather. Tents from the FAMILY series are especially designed for long stays in one place for larger groups. However, they can also be used in certain circumstances by boaters, cyclists, anglers, and bikers.

BIGLESS 5

VERSATILE TENT NOT ONLY FOR THE CAMPSITE

The Bigless 5 tent offers a pleasant indoor space and comfort for up to five people. It includes one main entrance, a large detachable bedroom, and a vestibule with a fixed floor and large mica windows. The advantage of this model is a rigid, stable self-supporting structure with reinforced Durawrap poles, which resists the weather and allows easy handling. The Bigless 5 tent is suitable for families, parties of friends, anglers and long stays in campsites or the wild.

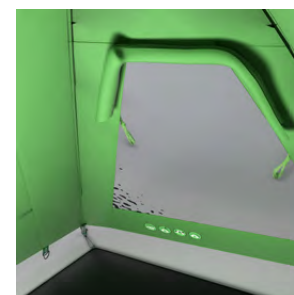

DIMENSIONS (W × L × H)	300 × 400 × 210 cm

BOSTON 4 / BOSTON 4 DURAL

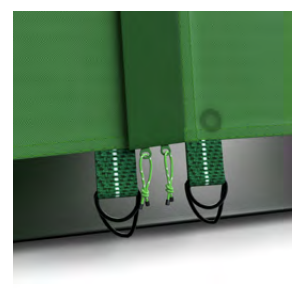

FOR TRIPS WITH FRIENDS

Another Boston tent, this time for those who want two separate bedrooms, each for two people. The tent has a high and spacious vestibule, which is equipped with a removable floor, and two entrances. Using the added poles, one entrance can be turned into a shelter. The tent is suitable for extended stays on camping sites, ideally for two couples or a family with children. Thanks to its solid Durawrap structure and high-quality material of the flysheet, the tent fares well in poor weather.

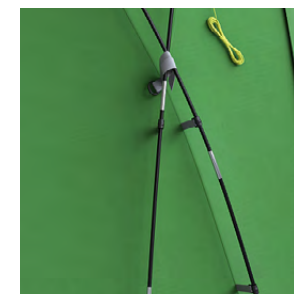

DIMENSIONS (W × L × H)	260 × 520 × 210 cm
DIMENSIONS (PACKED TENT)	70 × 25 cm
WEIGHT MIN./TOTAL	13.0 kg / 13.3 kg // 11.0 kg / 11.4 kg

DOWN

The DOWN range includes sleeping bags, which are united mainly by a high-quality natural filling made of duck feathers. This creates great thermal insulation properties and significantly reduces weight, volume and prolongs life. This will also be supported by excellent materials that have been used on the inner and outer parts. Sleeping bags from the DOWN range are therefore designed especially for harsh climatic conditions. Of course there is HUSKY equipment, which includes, for example, a branded YKK zipper, inner insulation strip, drawstring hood, anti-slip belts and other essentials.

DOPY

The Dopy sleeping bag provides comfort even in harsh climatic conditions. It is made of the highest quality materials to help you cope with freezing temperatures. Anti-slip strips on the back prevent the sleeping bag from slipping off the mat, meaning your sleep will be undisturbed throughout the night. The Dopy model comes as standard with an insulating collar, outer and inner pockets, a branded and insulated two-way zipper with a safety lock, and other essentials.

INTENDED THERMAL RANGE		
EXTREME	LIMIT	COMFORT
-25°C	-10°C	-2°C

FILLING	Duck feathers 750 g, 90/10, 700cuin
CONSTRUCTION	Chamber
INNER MATERIAL	Polyamide (Nylon)
OUTER MATERIAL	Polyamide (Nylon)
ACCESSORIES	Compression pack, storage bag, shaped leg area, anti-slip strips, collar
WEIGHT	1,690 g
RECOMMENDED HEIGHT	195 cm
DIMENSIONS (PACKED)	38 × 24 cm

DRAPE / DRAPE LADIES

The Drape sleeping bag has been developed for extreme conditions. It is suitable for demanding mountain expeditions as it warms you up even at very low temperatures. It is made of the finest materials, which significantly reduce its weight and volume. The non-slip strips on the back of this model prevent the bag from slipping off the mat. The Drape is equipped as standard with an insulating collar, outer and inner pockets, a branded insulated two-way zipper with a safety lock, and other essentials.

INTENDED THERMAL RANGE		
EXTREME	LIMIT	COMFORT
-20°C	-6°C	2°C

DINIS / DINIS LADIES

The Dinis sleeping bag is suitable for a variety of outdoor activities. It is designed for use from spring to autumn and the first light frosts will not catch it off-guard. Its big plus is the extra light weight: a pleasant 940 g in your luggage that you will not even feel. This model is also equipped with anti-slip strips in the back to prevent you slipping off the mat. The Dinis is equipped as standard with an insulating collar, outer and inner pockets, and a branded insulated two-way zipper, a safety lock, and other essentials.

INTENDED THERMAL RANGE

PREMIUM

In the PREMIUM range you will find both highly durable sleeping bags for extreme climatic conditions and very light sleeping bags for more versatile use. All are made of the best materials, which primarily ensure perfect thermal comfort for the conditions and a high degree of physical comfort. In addition, models have been developed for freezing temperatures, based on the demanding requirements of the difficult expeditions for which they were specifically designed. Sleeping bags from the series PREMIUM are designed for alpine expeditions, but also for cycling, motorcyclists and many other outdoor activities.

PROUD

The filling of the Proud sleeping bag, along with its outer and inner parts, enjoys a combination of high-quality materials that meet the demanding requirements of sleeping bags for extreme climatic conditions – keeping you warm, dry and comfortable. The bag includes anti-slip strips located on the back, preventing the sleeping bag from slipping off the mat. This model also features an inner pocket in the hood designed for a pillow, a branded insulated two-way zipper with a safety lock, a drawstring around the head, and other essentials.

INTENDED THERMAL RANGE

ULTRALIGHT

The ULTRALIGHT range includes extremely lightweight sleeping bags that are suitable for milder conditions and warmer periods. With their workmanship and modern high-quality materials, all models guarantee particularly low weight and low transport volume, as well as sufficient thermal comfort, weather resistance, and pleasing physical comfort in the recommended conditions. The Ultralight range of sleeping bags has been designed primarily for cycle-touring expeditions, classic hiking, and all outdoor activities where high demands are placed on luggage weight.

MANTILLA

The Mantilla is at home wherever conditions do not get too extreme, but where quality and comfort are still prized. So if you spend a lot of time wandering around the countryside from spring to late autumn, this sleeping bag will give you excellent support. Superior comfort and resistance to outdoor discomforts have been achieved in the traditional way using the best material

QUILTED OUTDOOR

The 'QUILTED' range offers traditional, very spacious, and pleasantly comfortable sleeping bags with a variety of applications. This is why the range includes such a wide array of models for different temperature conditions and in different material designs. Of course, all of them can be transformed into the 'classic' fully-fledged quilt. Quality materials are used as standard to guarantee sufficient thermal comfort. 'QUILTED' sleeping bags are ideal for outdoor trips, boating expeditions, or trekking, but their versatility also makes them suitable as a replacement for a blanket, for example, on a camping holiday, or in a holiday caravan or a cottage.

- DRAWSTRING AROUND THE HEAD
- ZIPPER LOCK
- EXTERNAL POCKET
- INTERNAL POCKET
- ZIPPER COVER FLAP

GUTY

The Guty is the warmest quilt sleeping bag in the HUSKY range. The thermal comfort of this model is enhanced by a detachable liner made of warm fleece, which can also be used as a separate blanket. The comfy and spacious sleeping bag Guty is suitable for trips to the countryside, camping, or stays in a holiday cottage, where you can easily make a fully-fledged blanket. The standard equipment here is the left/right zipper system, longitudinal fastening, a drawstring around the head, and other essentials such as a compression pack, inner and outer pockets for small items, and reflective elements.

QUILTED WEEKEND

The Weekend range of quilted sleeping bags offers the most comfortable sleep – close to home comforts. Thanks to the use of flannel inserts in the inner parts of these bags, and the touch of the silky outer material, camping in them is a sensation to savour. With their rectangular cut, they are suitable for anyone who prefers the advantages of a classic quilt design (the greater variability of use is because they can be completely unzipped). The Weekend range of sleeping bags is especially useful for longer stays in camps, caravans or cabins.

GARY

The Gary sleeping bag is soft and very comfortable. It can be turned into a fully-fledged alternative for a classic duvet, and is used without problems from spring to late autumn. Its dimensions are also suitable for people of taller stature. This model is equipped with a left/right zipper system and essentials such as a compression pack, inner and outer pockets for small items, and reflective elements. It is designed primarily for longer stays on campsites and in caravans or cabins.

OUTER MATERIAL	100% Polyester (Polypongee)
ACCESSORIES	Compression pack
WEIGHT	2,410 g
RECOMMENDED HEIGHT	175 cm
DIMENSIONS (PACKED)	50 x 30 cm

KIDS GALY

A classic, comfortable, three-season sleeping bag for children, which can be unzipped to create a full-size duvet. The use of high-quality materials guarantees sufficient temperature comfort and resistance to outdoor discomfort. This spacious model is equipped with a comfortable flannel insert in the inner part and silky outer material. As standard it includes a system of left/right zippers together with other essentials such as a compression pack, inner and outer pockets for small items, and reflective elements. The children's Galy is designed for summer camps, camping and summer cottage holidays.

MAGIC

A smart solution that every child will enjoy for many seasons. By simply attaching or detaching the pocket-shaped bottom, this model can be shortened or extended. In the case of the shorter version, which is suitable for heights up to approx. 125 cm, the detached pocket can serve as an insulating foot bag. The longer version is usable for body heights of around 155 cm. The children's Magic is ideal for outdoor trips, boating expeditions, and trekking. Standard equipment is a left/right zipper system, longitudinal fastening, insulating collar, a drawstring around the head, compression pack and, for example, outer and inner pockets for small items.

DIMENSIONS (PACKED)	35 x 20 cm

MERLOT

A scaled-down version of the classic mummy sleeping bag with a longer zipper. The Merlot children's sleeping bag excels in terms of light weight and low transport volume, which is suitable for children's camps, boating trips, or camping. High-quality materials guarantee thermal comfort and resistance to ground frost and bad weather. This model is equipped with a left/right zipper system, longitudinal fastening, insulation collar, a drawstring around the head, a pocket for affixing it to a mat, a compression pack, inner and outer pockets, and other essentials.

FINE 0,8

A versatile mat made of EVA material that is lightweight and storage-friendly. The mat is waterproof and provides perfect insulation, which is enhanced by an aluminum layer on the underside.

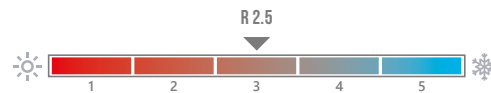

WEIGHT	320 g
DIMENSIONS	180 × 60 × 0,8 cm
DIMENSIONS (PACKED)	60 × 14 cm
MATERIAL	EVA, Alu layer
PERFORATION	without perforation
ANTI-SLIP COATING	No

FOAL 1,2

A lightweight and strong mat made of EVA material, suitable for extreme conditions. The material used excels in terms of good insulation properties and long life.

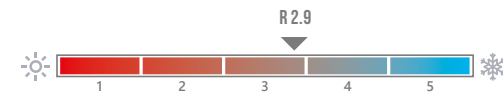

WEIGHT	320 g
DIMENSIONS	180 × 60 × 1,2 cm
DIMENSIONS (PACKED)	60 × 18 cm
MATERIAL	EVA
PERFORATION	without perforation
ANTI-SLIP COATING	No

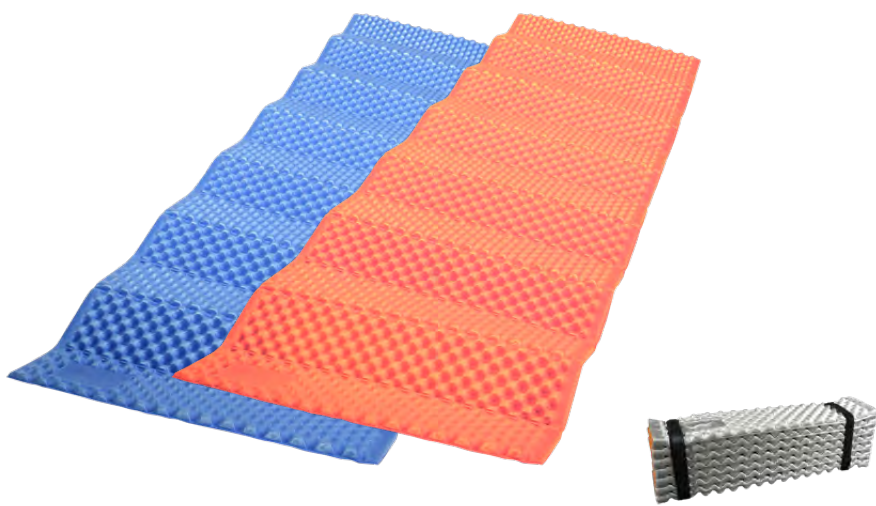

FELT 1,4

The Felt 1.4 model is made of EVA material. Its dimensions are 190 × 60 cm with a comfortable thickness of 1.4 cm. The mat has excellent insulation, durability, and low weight.

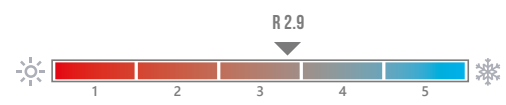

WEIGHT	360 g
DIMENSIONS	190 × 60 × 1,4 cm
DIMENSIONS (PACKED)	60 × 20 cm
MATERIAL	EVA
PERFORATION	without perforation
ANTI-SLIP COATING	No

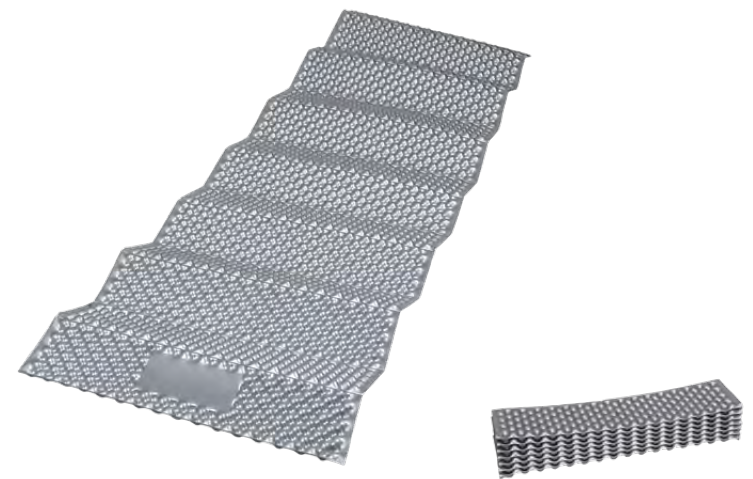

AKORD 1,8

A folded mat whose thermo-reflective coating and shaped surface combine to excellently insulate heat.

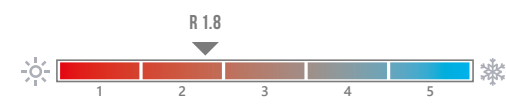

WEIGHT	410 g
DIMENSIONS	183 × 56 × 1,8 cm
DIMENSIONS (PACKED)	56 × 17 cm
MATERIAL	IXPE s Alu layer
PERFORATION	without perforation
ANTI-SLIP COATING	No

ATHINE 1,7

Even thinner, more compact, and lighter folded mat. Thanks to the special material, it has almost identical thermal properties to the thicker model.

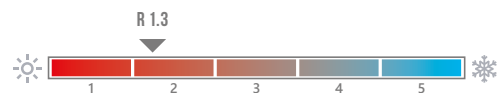

WEIGHT	250 g
DIMENSIONS	188 × 55 × 1,7 cm
DIMENSIONS (PACKED)	55 × 13 cm
MATERIAL	IXPE s Alu layer
PERFORATION	without perforation
ANTI-SLIP COATING	No

FUNNY 10

The Funny model is light and compact. A thickness of 10 cm perfectly isolates you from the ground and smooths out any unevenness. Using ripstop material increases its durability. The mat includes an integrated foot pump and side outlet valve.

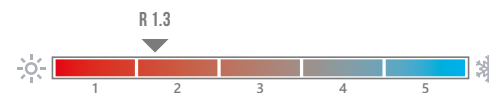

WEIGHT	1,350 g
DIMENSIONS	186 × 55 × 10 cm
DIMENSIONS (PACKED)	33 × 10 cm
MATERIAL	240T PES Diamond Ripstop TPU coating
PERFORATION	without perforation
ANTI-SLIP COATING	No

FATTY 10

The Fatty model is a larger version of the Funny mat. It is a lightweight and compact inflatable mat. A thickness of 10 cm perfectly insulates you from the ground and compensates for any unevenness. Using ripstop material treatment increases its durability. The mat includes an integrated foot pump and side outlet valve. This model is wider for even more comfort.

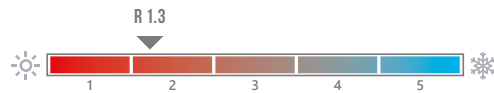

WEIGHT	1,900 g
DIMENSIONS	195 × 70 × 10 cm
DIMENSIONS (PACKED)	35 × 15 cm
MATERIAL	240T PES Diamond Ripstop TPU coating
PERFORATION	without perforation
ANTI-SLIP COATING	No

FROGGY 10

The Froggy inflatable mat offers maximum comfort thanks to a proper air cushion. Special 3D sidewall shaping prevents you from falling off the mat.

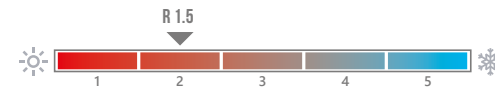

WEIGHT	1,100 g
DIMENSIONS	200 × 70 × 10 cm
DIMENSIONS (PACKED)	29 × 12 cm
MATERIAL	190T 75D Polyester Pongee TPU Coating
PERFORATION	without perforation
ANTI-SLIP COATING	No

FLARY 7

The Flary 7 inflatable sleeping mat will surprise you with the weight achieved by the anatomical shaping in the head area and premium durable materials. The air chambers provide comfort and optimal thermal insulation.

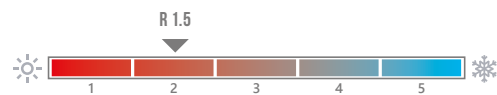

WEIGHT	800 g
DIMENSIONS	185 × 65 × 7 cm
DIMENSIONS (PACKED)	35 × 11 cm
MATERIAL	190T Polyester Pongee TPU Coating
PERFORATION	
ANTI-SLIP COATING	No

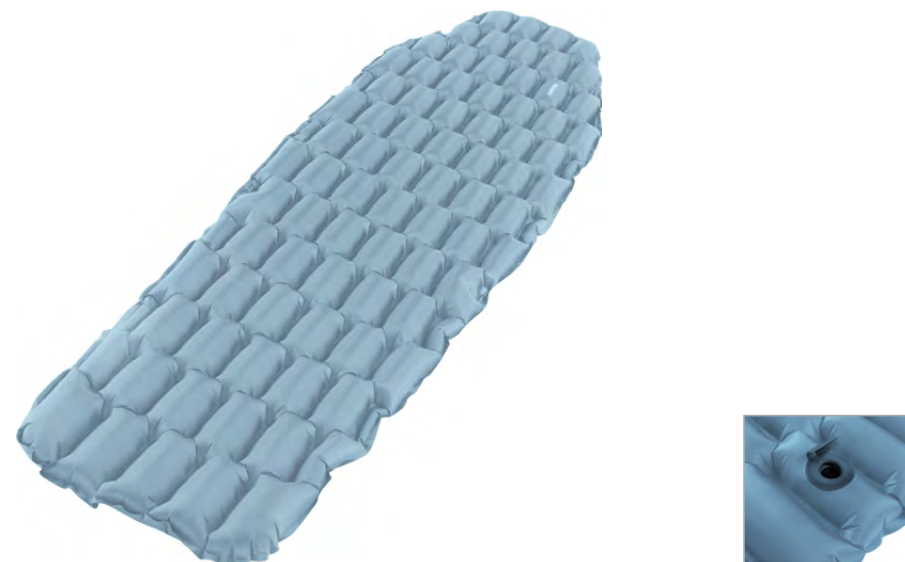

FLICKY 8

The Flicky 8 model will win you over with its comfort, which is ensured by the 8 cm height and elevation in the head area.

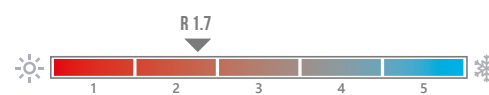

WEIGHT	850 g
DIMENSIONS	183 × 63 × 8 cm
DIMENSIONS (PACKED)	24 × 11 cm
MATERIAL	190T Polyester Pongee TPU Coating
PERFORATION	without perforation
ANTI-SLIP COATING	No

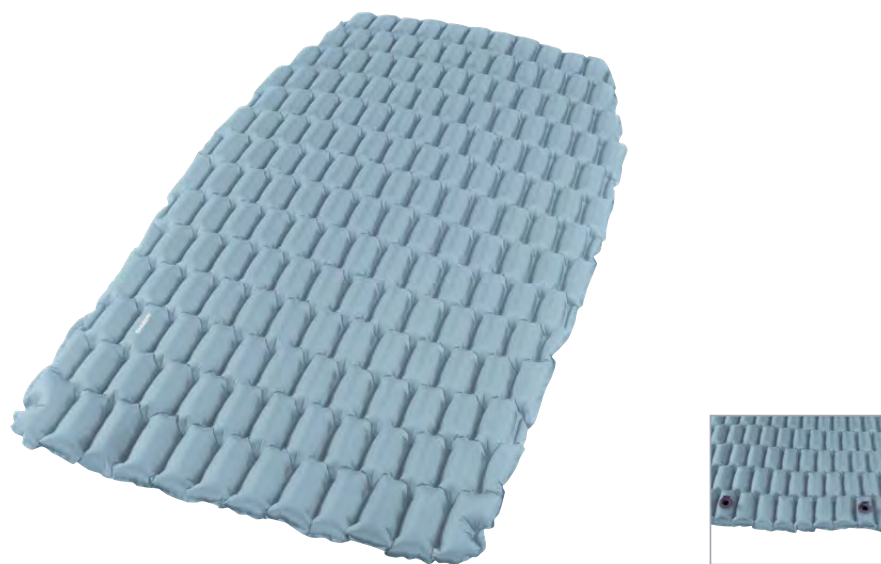

FLITE 5

The Flite 5 inflatable mat surprises you with its minimal weight, which has been achieved through anatomical shaping and the use of premium durable materials. The air chambers provide a comfy sleep and optimal thermal insulation.

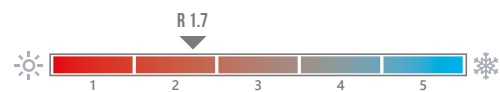

WEIGHT	320 g
DIMENSIONS	180 × 50 × 5 cm
DIMENSIONS (PACKED)	16 × 9 cm
MATERIAL	20D 380T Nylon Ripstop TPU coating
PERFORATION	
ANTI-SLIP COATING	No

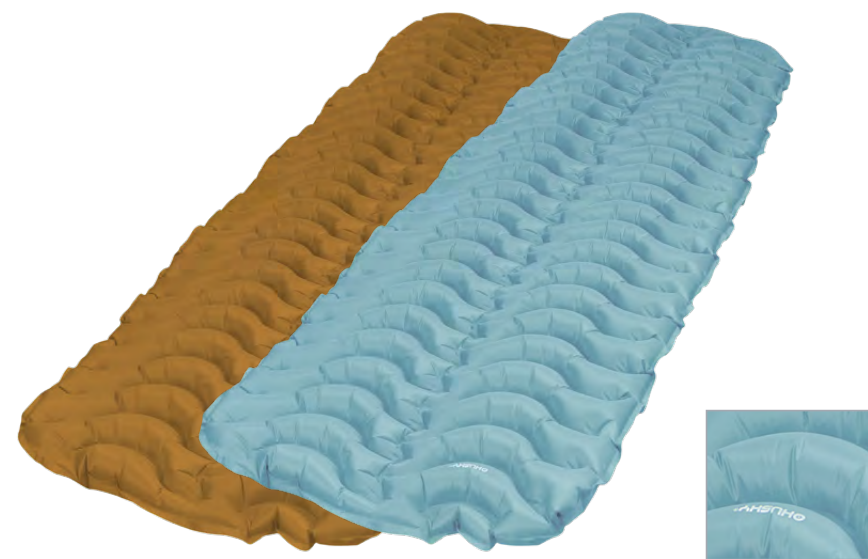

FROMY 5

An inflatable sleeping mat for two helps travellers save even more weight. Due to its dimensions, it fits perfectly into a two-person tent. Of course, it uses abrasion-resistant material with ripstop.

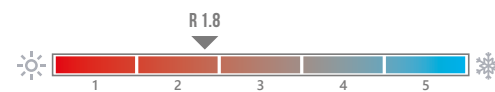

WEIGHT	840 g
DIMENSIONS	180 × 100 × 5 cm
DIMENSIONS (PACKED)	40 × 10 cm
MATERIAL	20D 380T Nylon Ripstop TPU coating
PERFORATION	
ANTI-SLIP COATING	No

FEEZY 6

The Feezy 6 inflatable mat offers optimal weight distribution and good thermal insulation thanks to its longitudinal chambers. The smart valve makes it easier not only to inflate, but also to pack the mat away.

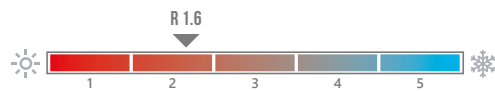

WEIGHT	460 g
DIMENSIONS	180 × 61 × 6 cm
DIMENSIONS (PACKED)	20 × 10 cm
MATERIAL	20D 380T Nylon Ripstop TPU coating
PERFORATION	
ANTI-SLIP COATING	No

FURY 5

Lightweight, comfortable and waterproof, this mat is equipped with an anti-slip treatment that helps increase the quality of your rest to the max. With ripstop treatment, the material used is even more durable.

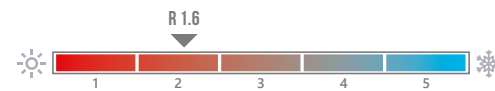

WEIGHT	410 g
DIMENSIONS	187 × 55 × 5 cm
DIMENSIONS (PACKED)	22 × 10 cm
MATERIAL	20D 380T Nylon Ripstop TPU coating
PERFORATION	
ANTI-SLIP COATING	No

FUMY 5,5

Lightweight, comfortable and waterproof, the Fumy 5.5 features a raised head area that helps to maximize the quality of your rest.

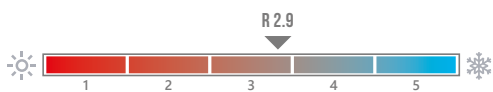

WEIGHT	490 g
DIMENSIONS	185 × 54 × 5 cm
DIMENSIONS (PACKED)	24 × 9 cm
MATERIAL	20D 380T Nylon Ripstop TPU coating
PERFORATION	
ANTI-SLIP COATING	No

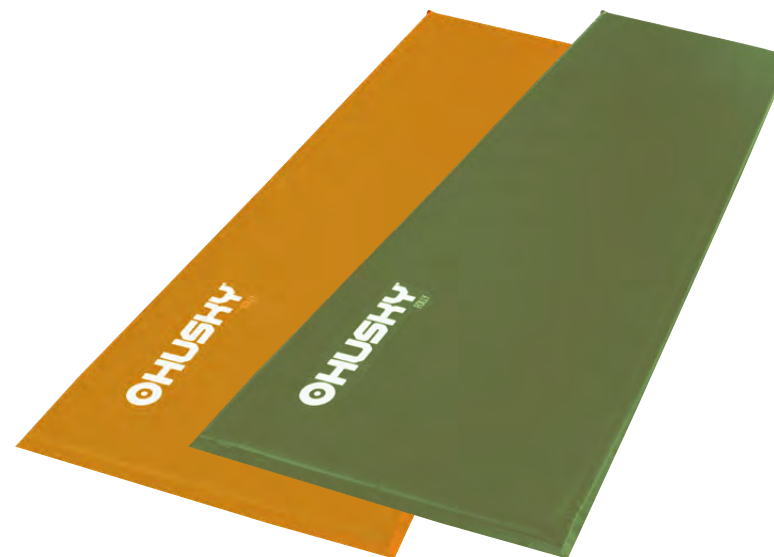

FINY 2,5

A high-quality and space-saving, self-inflating mat for travelling light and getting a comfortable sleep on any terrain.

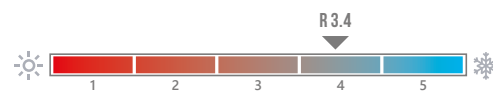

WEIGHT	520 g
DIMENSIONS	119 × 51 × 2.5 cm
DIMENSIONS (PACKED)	26 × 15 cm
MATERIAL	20D 380T Nylon Ripstop TPU coating
PERFORATION	
ANTI-SLIP COATING	No

FOLLY 2,5

The Folly mat, with a comfortable insulating layer of 2.5 cm, is extremely lightweight and space-saving. It is also suitable for longer trips. The ripstop treatment of the material used ensures greater durability.

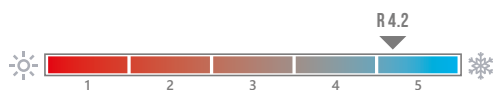

WEIGHT	800 g
DIMENSIONS	180 × 51 × 2.5 cm
DIMENSIONS (PACKED)	25 × 17 cm
MATERIAL	75D 210T PES Honeycomb Ripstop TPU coating
PERFORATION	without perforation
ANTI-SLIP COATING	No

FUZZY / FUZZY ARMY 3,5

The lightweight and compact Fuzzy mat provides a comfortable insulating layer of 3.5 cm. The model is extremely durable thanks to the Ripstop treatment of the material used.

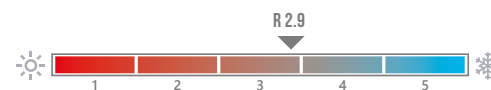

WEIGHT	990 g
DIMENSIONS	180 × 58 × 3.5 cm
DIMENSIONS (PACKED)	28 × 20 cm
MATERIAL	680D PES Honeycomb Ripstop TPU coating
PERFORATION	without perforation
ANTI-SLIP COATING	No

FROSTY 2,5

A lightweight and compact mat with perforated inner insulation layer in a mummy shape, measuring 26 × 15 cm. The ripstop treatment of the material increases its durability even more..

WEIGHT	670 g
DIMENSIONS	180 × 51 × 2.5 cm
DIMENSIONS (PACKED)	26 × 15 cm
MATERIAL	75D 240T PES Diamond Ripstop TPU coating
PERFORATION	Diamond perforation
ANTI-SLIP COATING	No

FLAKE 3,5

Lightweight, comfortable and waterproof, this mat is equipped with an anti-slip treatment that helps increase the quality of your rest to the max. The ripstop treatment increases the durability of the material used.

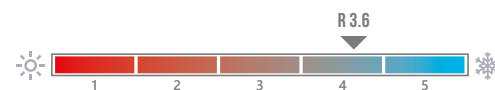

WEIGHT	980 g
DIMENSIONS	180 × 58 × 3.5 cm
DIMENSIONS (PACKED)	30 × 17 cm
MATERIAL	75D 240T PES Diamond Ripstop TPU coating
PERFORATION	Diamond perforation
ANTI-SLIP COATING	Yes

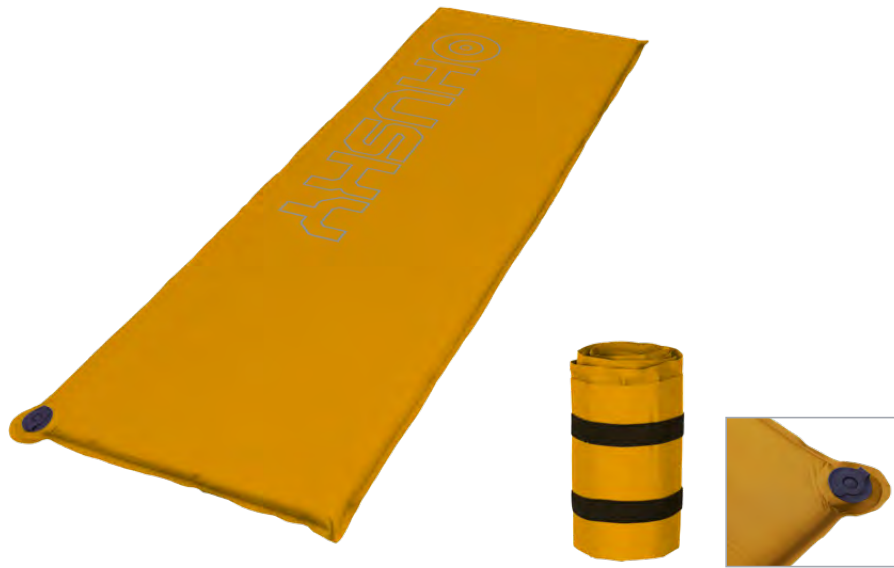

FRUTY 4

The durable self-inflating sleeping mat Fruty is suitable for travelling as well as for all kinds of outdoor activities. The lightweight material and easy packability make it the ideal companion for travellers who demand quality sleep in every terrain.

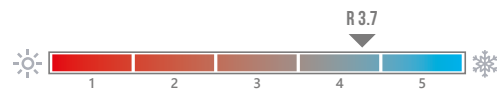

WEIGHT	870 g
DIMENSIONS	183 × 51 × 4 cm
DIMENSIONS (PACKED)	26 × 16 cm
MATERIAL	190T Polyester, TPU coating
PERFORATION	without perforation
ANTI-SLIP COATING	No

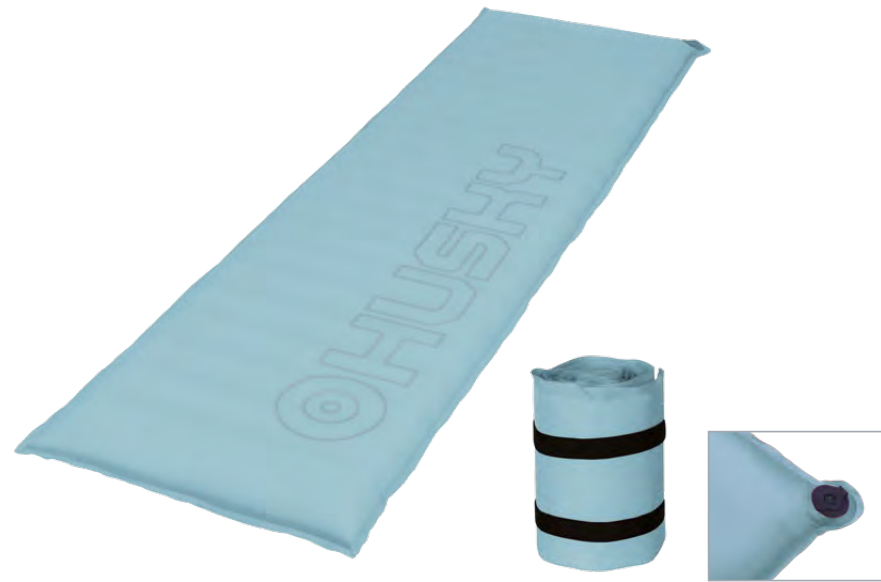

FLEDY 4

Take the comfortable Fledy self-inflating sleeping mat with you on all kinds of outdoor activities. The lightweight material and easy packability make it the ideal companion for travellers who demand quality sleep in every terrain.

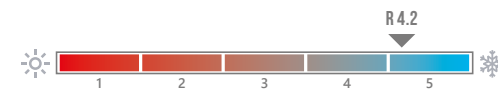

WEIGHT	970 g
DIMENSIONS	183 × 62 × 4 cm
